

Representation of Subcontractors and Suppliers

Construction disputes can lead to non-payment. We have specific strategies to help subcontractors and suppliers avoid payment problems and navigate through complex issues such as pay-if/when-paid clauses, liquidated damages, change orders, differing site and changed conditions, and time extensions.

Additionally, we advise subcontractors and suppliers how to preserve lien rights on public and private projects. The Texas Property Code and Texas Government Code's notice requirements are complicated and unforgiving. We provide assistance preparing and filing timely notices, releases, and if necessary, suits to foreclose liens.
