

Immigration Compliance & Audits

Both public and private sector employers face the same challenges in completing, updating and maintaining the U.S. Form I-9. Underwood attorneys stay abreast of the latest rulings and form changes. They are available to train an entire Human Resources department or your sole employee responsible for I-9 compliance. Additionally, many employers prefer the confidence that comes from having an Underwood attorney perform an I-9 audit to improve quality control and to prepare for a government compliance audit.
