

UNDERWOOD

Public Education

Underwood's Education Law Practice Group has been representing educational institutions, including school districts, district personnel, private schools, and colleges, for decades, and we recognize the unique responsibilities and expectations that the boards and administrators that run public and private schools and colleges face on a daily basis.

Our attorneys possess a wealth of knowledge regarding all legal issues touching upon educational institutions and we are able to provide detailed and efficient advice and counsel to our education clients. Our experience also includes frequent representation of our education clients in administrative proceedings as well as in state, federal, and appellate court proceedings.

Our attorneys have been asked to give presentations on school law and special education topics at regional and statewide conferences, including programs sponsored by Regional Education Service Centers, Texas Association of School Administrators, Texas Association of School Boards, Texas Council of School Attorneys, and the Texas Administrators of Special Education.
