

UNDERWOOD

Real Estate

Underwood's [real estate](#) practice includes all facets of real estate. We represent buyers, sellers, lenders, title companies, and other parties to real estate and related financing transactions.

Real estate matters can include acquisition, sales, construction, development, and various forms of financing, from conventional loans to private placements. Underwood lawyers are equipped to handle virtually any real estate matter, and with Underwood's roots in West Texas, we can draw on past experience in farm, ranch, and agribusiness matters, which can provide solutions even in urban, commercial settings.

Our real estate lawyers collaborate with their Underwood colleagues steeped in other practice areas, including health care, construction, banking and finance, schools and public finance, and in the case of distressed situations, workouts and even bankruptcy. The net effect of this diverse base is the ability to serve virtually any participant in our region's dynamic real estate environment.
